logixcentral Hosted Solution

Within the logixcentral hosted solution there are five different levels available to you, they are as follows:

- **Planner**
This allows you to import orders, view them on maps, plan them manually to routes and generate HTML reports.
- **Optimiser**
This adds the ability to automatically optimise the pool of orders using the Auto LogiX engine in a single depot.
- **Enterprise**
As Optimiser, but with Multi-Depot functionality on optimising.
- **Ultimate**
As Enterprise but with the addition of the Site LogiX feature, which gives you the ability to optimise the location of depots.
- **Viewer**
Allows for routes, maps and reports to be viewed but not created.

This solution is hosted on DPS servers.

Initial Costs:

One-off initial setup fee of	£1000	(€1500)
Training	£775	(€850)
Implementation	£750	

Per Month:

(min 12 months, 3 month's payments in advance per user)
